

# Transform Your Supply Chain with SCI's Comprehensive Sustainability Services

At SCI, we understand the growing demand for sustainability services, and we are here to support our customers in implementing comprehensive logistics projects that prioritize environmental responsibility and sustainability. Our services help companies maximize the value of their investments and improve their reputation by integrating sustainability into their business decisions and operations.

## Lead the Way in Sustainable Supply Chain with SCI's Expertise

### Our Sustainable Logistics Services

Adding value to our extensive experience working with clients across Mexico and the American continent

### Identified key factors for successful sustainability projects:

- **Alignment with the business:** We design and implement solutions that are tailored to each company's specific business objectives, strategy, and culture.
- **Involvement of personnel at all levels:** By engaging employees at every level, we create buy-in and maximize results.
- **Integration of sustainability into central business processes:** We integrate sustainability into a company's value chain for maximum impact.

### We offer a range of sustainability services, including:

- Sustainability and green building consultancy and certification
- Energy consulting services, including energy audits, digital monitoring and management
- Climate change and sustainability consulting services, including environmental accounting, climate financing, decarbonization strategies and inventory scopes: 1, 2 & 3; and regulatory compliance
- Training in sustainability, energy, and climate change related to logistics

### Why Choose SCI?

At SCI, we believe that by aligning sustainability with each business, we can achieve superior results and maximize the value of our clients' investments. Our approach puts sustainability issues in the spotlight, making them visible and measurable, and our expertise in logistics and sustainability ensures a successful implementation of projects.

Take the first step towards a more sustainable supply chain. Contact SCI today to learn more about our comprehensive sustainability services and transform your supply chain for the better.
